## Launch Status

✓

**Your instances are now launching**  
The following instance launches have been initiated: [i-01b7b0f024eaea66b](#) [View launch log](#)

ℹ

**Get notified of estimated charges**  
[Create billing alerts](#) to get an email notification when estimated charges on your AWS bill exceed an amount you define (for example, if you exceed the free usage tier).

### How to connect to your instances

Your instances are launching, and it may take a few minutes until they are in the **running** state, when they will be ready for you to use. Usage hours on your new instances will start immediately and continue to accrue until you stop or terminate your instances.

Click **View Instances** to monitor your instances' status. Once your instances are in the **running** state, you can **connect** to them from the Instances screen. [Find out](#) how to connect to your instances.

Monitoring

If you are using a custom instance profile instead of a managed policy, your environment might show the No Data health status. This happens because the instances aren't authorized for the action that communicates enhanced health data to the service. To authorize the action, add permission to your instance profile according to [Enhanced health authorization](#) in the *Amazon Elastic Beanstalk Developer Guide*.
